Presentation of ESMOD Seoul :

ESMOD Seoul, founded in 1989 as an exclusive branch school in Korea of ESMOD Paris, is the leading fashion institute and has adopted same industry-based curriculum of ESMOD Paris.

ESMOD Seoul recruits once a year its new students. ESMOD Seoul offers a 3-year (6 semesters) course specialized in fashion design and creation. Its hands-on core educational system simultaneously emphasizes on both Stylism (means fashion design in French word) and Modelism (means pattern drafting in French word) giving students strong foundation with creativity and technicality thus well-preparing its graduates for the real fashion world. At the end of 2nd year class, students choose one specific area from womenswear, menswear, children's wear or lingerie. Upon their choice of area, students make their own graduation collection to present their professionalism and practicality.

ESMOD Seoul also runs a student exchange program among its ESMOD International Network which consists of 20 schools in 14 countries. A transfer among the schools of ESMOD International Network is also possible.

For more information on the course in ESMOD Seoul, refer to ESMOD Seoul's website : <http://esmod.co.kr/eng/>

The course lectures in ESMOD Seoul are mainly given in Korean and for some classes in 1st year in French with translation in Korean. ESMOD Seoul doesn't run an international class separately for which the lectures are given only in English, but English or French speaking students are placed at the classes with English or French speaking professors. As the course of fashion design and creation mostly consists of learning skills and having practical training (famous ESMOD teaching method), foreign students are able to follow the lectures without any language problem if students are fluent at least in one of English or French.

Even though the foreign students can attend the classes at ESMOD Seoul not being fluent in Korean, by the law and regulations on the immigration implemented recently, foreign students need to get a certificate of score of proficiency in Korean TOPIK-I Level 1 as explained above to proceed the formalities of visa. Also it's important to study further to reach a higher level to understand the lectures at the same time with Korean classmates and to communicate with them. It's much easier for international students to adapt to school life and living in Seoul.

Registration fee and Annual tuition :

Every new student pays a registration fee in addition to the annual tuition. The registration fee includes administrative expenses, textbooks and personal tools. The expendable materials and supplies (muslin, fabric, etc..) aren't included.

Foreign students who get an admission from the school need to pay the total amount of registration fee and of annual tuition by due time in order that the school starts the visa procedure on behalf of foreign students.

Please contact the school to get information on the registration fee and the annual tuition for the current academic year : seoul@esmod.co.kr

ESMOD Seoul runs a scholarship program according to its strict criteria : academic scores, financial situation, achievement, contribution to the school, etc... New students to ESMOD Seoul can apply to the scholarship after their enrollment of a semester.

Visa procedures :

ESMOD Seoul is a private educational institute specialized in fashion design and creation which is allowed by the Korean government to welcome foreign students with a visa type D-4-6 on purpose of entry "General Trainee - training at a private institute". This visa is valid 6 months and renewable. This visa type requires to ESMOD Seoul as an inviting party to proceed each step of formalities, on behalf of the foreign student, to the Korean Immigration Office in Seoul with all legitimate papers provided by foreign student on the request of ESMOD Seoul. **It is strictly prohibited to work, even in part-time for the holder of visa type D-4-6 in Korea.** Foreign students need to have their own financial plan to support the cost for studying and living.
